Literary Note.

Just at this time of the year the readers
of magazines are considering what period-
icals shall be ordered for 1901, and most
magazines are publishing their next year's
programme. At the head of every list,
probably of four or five place, The Cana-
dian Magazine, is the only highest-class
publication in this country to which our
literary men and publishers may contribute.
It is distinctly national in the sense that it
carries in every part of Canada and deals
with such topics as interest every citizen,
no matter whether he lives by the fruit of
St. Lawrence or among the Mountains of
British Columbia. The Canadian Magazine
has a considerable circulation in Great
Britain and the United States and also in
the following countries—India, Japan,
Philippines, Australia, New Zealand, Zanzibar,
British North Borneo, Jamaica, Barbadoes,
British Guiana, Brazil, Chili, Mexico,
Hawaii, Russia, Germany and Hungary. A
magazine which is read with such favor
abroad should be well supported at home so
that it may be enabled to do its work well.
The November number, just to hand, con-
tains some valuable articles, including "A
Visit to a Board up," illustrated by John
Lane, and "The Story of Eight General
Elections," by Arthur H. V. Colquhoun.

ATTORNEY ALBERT T. PATRICK ARRESTED.

Accused of the Murder of Millionaire W. M. Rice in September Last.

New York, Nov. 4.—The death of the wealthy William Marsh Rice at his Madison avenue apartments on Sept. 23, the attempt of his New York attorney, Albert T. Patrick, to cash cheques for large amounts which purported to be signed by the millionaire, the refusal of one bank to cash the cheques drawn on it, and the discovery by the bank officials that Rice was lying dead at the time the cheques were presented, the subsequent claim by Patrick that Mr. Rice had made him by will the trustee of his estate, which amounts to anywhere between three and eight millions, the charge of forgery both as regards the cheques and the will placed against Patrick and Mr. Rice's valet, Charles P. Jones, the arrest of Patrick and Jones and their lodgment in jail by the developments of yesterday promises to become the most celebrated of the many celebrated crimes which the courts of this city have been called on to investigate.

The first incident which led up to yesterday's climax was the fact disclosed on Wednesday that Jones had been taken to the district attorney's office and a subsequent rumor that he had made a confession to the authorities. Before the public had time to learn if the report of a confession was true came the more startling news that during the silent hours of the night Jones had in his cell in the toms attempted suicide by cutting his throat with a penknife given him, he says, by Attorney Patrick, also confined in the toms.

Attorney Patrick denies having furnished Jones the penknife, and he also denies the statement in the confession.

FIVE POWERS AGREE.

Washington, Nov. 4.—The alignment of the powers on the British-German agreement is now complete. Aside from Italy and Austria, whose adherence to the agreement was expected, owing to their political relations with Germany, Japan is the only one of the powers which has given unconditional assent to the agreement. As the matter now stands five of the powers are united on the terms of the agreement, viz.: Great Britain, Germany, Italy, Austria and Japan. Three of the powers, the United States, France, and Russia, accept the clauses relating to the "open door" and the territorial integrity of China, but withhold action on the third clause to force procedure in case any power seizes territory.

BRITISH CABINET.

London, Nov. 4.—Queen Victoria has approved the appointment of Lord Salisbury as premier and lord of the privy seal, the Marquis of Lansdowne as secretary of state for foreign affairs, Mr. William St. John Brodrick as secretary of state for the colonies, the Earl of Salisbury as first lord of the admiralty and Mr. C. T. Ritchie as secretary of state for home affairs.

According to this list of appointments Mr. George J. Goschen, first lord of the admiralty in Lord Salisbury's last cabinet, Sir Matthew White Ridley, who has been secretary of state for home affairs, and Viscount Cross, who was lord of the privy seal, have been dropped in the formation of the new cabinet.

LIPTON'S PORK DEAL.

Chicago, Nov. 4.—As a result of his deal here Sir Thomas Lipton is believed to have made \$350,000. There were only 35,000 barrels of pork that could be delivered, and the Englishman owned them all, as well as twice that number bought from people who did not have a barrel they could deliver. When the price reached \$16 cents a time ago the majority of shorts thought it time to buy some of the pork, they had contracted to deliver at approximately \$11 per barrel during October. Numerous private settlements are said to have been made to that while barish speculations in pork have received some painful financial injuries, the wounds have not been mortal.

SHORT-LIVED FREEDOM.

New York, Nov. 4.—Magistrate Flannery Saturday discharged from custody Cornelius Alvord, the defaulting note holder of the First National bank. The magistrate said he was satisfied he had no jurisdiction in the case.

Alvord was allowed to leave the court room, but as soon as he reached the corridor he was arrested by a United States marshal and taken before United States Commissioner Shields.

United States Commissioner Shields held Alvord in \$150,000 bail for examination on Wednesday next. Alvord was not offered and Alvord was taken to Ludlow street jail.

Madrid, Oct. 31.—Several bands of Carlists have appeared in the neighborhood of Barcelona. Three priests have been arrested in Barcelona in connection with the Carlist activity. Their quarters were searched and important documents found. Gendarmes searched the country house of a brother-in-law of the Duke of Solferino and seized several rifles. The Carlists have received orders to hold themselves in readiness to set out for Catalonia at a moment's notice.

AFTERTHOUGHTS.

Ere this issue reaches our readers the election campaign will be a thing of the past and it will only remain to sum up results and find which party has won. Party papers both claimed the victory for their respective parties so that little definite knowledge can be gained therefrom.

The fight has been a hot one but so far as we can learn it has been comparatively clean, neither party indulging in as much abuse as in some former contests.

In Eastern Assiniboina the candidates were both gentlemen and their good example was one which their followers were wise enough to follow. We do not pretend to say that our own remarks were always satisfactory to both parties, but we take pride in the knowledge that THE PROGRESS never descended to personalities and mud-slinging.

All political contests naturally cause strong feeling among some supporters on both sides but the sensible man learns to set aside party feeling as soon as the elections are over and buckles down to his vocation with a determination to live in harmony with all men regardless of the side they supported.

There has been a noticeable improvement in the conduct of audiences in this campaign, in almost every instance the speakers receiving a fair hearing. The spirit of independence throughout the country is also a matter for congratulation and shows a tendency on the part of the people to think for themselves and not to follow any party whether right or wrong. This assuredly will have an elevating influence on political morals which have been altogether too lax until recent years.

WESTERN HORSES SATISFACTORY.

The war in South Africa created an increased demand for mounts in the British army besides the supply required for Canadian troops. These in every case have proved eminently satisfactory. The British government, having realized the value of Canadian horses, is now purchasing a large number of this country.

When Dr. McEachran was purchasing mounts in Alberta for the

Strathcona Horse a number of western papers complained that he chose very poor animals for the purpose which would disgrace the contingent and the west at the same time. Hearing of this adverse criticism, Col. Steele has written Dr. McEachran assuring him that the horses are the best in the army and have stood the test of marching well. This should make a good advertisement for Canada and encourage Canadians to breed suitable horses for army mounts.

SYSTEM WRONG.

The financial world in New York received quite a shock last week in connection with the disclosure of a defalcation on the part of an employee in one of the big banking institutions of that city which amounts to something like \$500,000. The institution more particularly concerned is able to stand the loss of the money, but it is not too much to say that it has lost infinitely more and with it all similar institutions doing business in that city in prestige. There is a disposition on the part of the public to believe that if such a large sum of money can be successfully stolen by an employee and the theft hidden for a considerable length of time in spite of the periodical examinations of two different sets of auditors there must be something wrong with the whole banking system.—The Commercial.

We in Canada are not free from similar defalcations. It is not necessary to go back five years to find cases where financial institutions have gone to the wall through mismanagement or robbery among the officials. The auditors are often too lax in their investigations and the law furnishes too many loopholes of escape for the man who makes a large steal while the man who steals five or ten cents is punished.

LAND POOR.

During the last few years business men in many parts of the west have viewed with considerable dissatisfaction the inclination of many farmers to postpone the payment of store bills in order that they may lay up treasures in the form of vast acres. No one can, of course, find fault with him who pays promptly for his goods if he chooses to invest his spare cash in more land, though most people would prefer to see new settlers coming in rather than a few individuals holding two, three or more sections each.

What business men can and do object to is the farmer with limited means buying his goods on credit and paying cash for large areas of land that he does not absolutely need. This state of affairs is particularly noticeable this year. Many farmers, counting on good crops, invested heavily last fall and spring and to-day the business men have to suffer. There is no doubt that wheat is bringing a better price than last year but the limited quantity and poorer grades do not net the grower sufficient to pay all accounts. He must pay for his land or lose it, and consequently other accounts have in many cases to stand.

It were better to go slow, do less land grabbing and keep clear of debt. More money would thus be floating in the towns and the cry of hard times would not be so prevalent.

If, in self preservation, the merchants take steps to compel payment, the farmers will have no one but themselves to blame. No business can be run without money and while the merchants of the west are willing to and do carry on business from spring to fall, it is no more than fair to ask them to wait

Rogue Captured.

Baltimore, Md., Nov. 3.—Edward R. Orth, an Englishman, was arrested here yesterday, and the police consider that they have made an important capture. A communication was received by the department from Edward Jones, of Perth, Ont., inclosing a letter received from Orth in which he stated that a deceased relative had left him certain securities, which he would forward on receipt of \$4.60 to cover the costs. In Orth's office was found more than a thousand such letters ready for mailing to various parts of the United States and Canada.

The "securities" consisted of certificates of stock of the "Newfoundland Pulp and Land Company," with offices in London and mills at River Head, Nfld. Orth claims to be the American representative of the banking firm of Althouse Van Dyke and Co., Lourenç, Marques, Portuguese South Africa. The police doubt the existence of either the firm or the Pulp company. If no other charge can be laid against Orth he will be prosecuted for using the mails for fraudulent purposes.

These letters have no doubt had wide circulation throughout Canada as we were shown one last week by Mr. J. P. Beauchamp of this town. Mr. Beauchamp was not long in concluding that the scheme was fraudulent and failed to deposit \$4.60 with the postmaster as required.

Edgeley Echoes.

From our own correspondent.)

Mr. Hollingshead and his workmen have finished the painting of the new school. The work is well done, and adds greatly to the appearance of the building.

Messrs. McIvor and McIntosh, of Poplar Plains, visited Edgeley last week on business.

Mr. and Mrs. T. J. Wilson visited Inglewood last Saturday.

Last Friday Miss Dottie Fair left in company with her uncle who was on his way east from the Klondyke, for Ontario where she will reside for some time. May she have a pleasant visit in the east and a safe return. Dottie will be much missed by the young people of the district.

Messrs. Paterson and Griffith, of Katepwa, visited friends here last Sunday.

Last Sunday, about 4.30 p.m., we were treated to a small edition of a cyclone, such as we read is of frequent occurrence in the States. For a few minutes the air was full of snow, hail, flying straw, dirt, chips, etc., which all appeared to come from a very black cloud in the west. As far as we know there were no serious consequences.

We are fast losing our young people. They all seem to have a peculiar liking for Nelson, B.C. The last to leave for that place on Sunday's train were Miss Ida Craig and Mr. Hugh McKenney. They will be much missed by their relatives and friends.

The elections will soon be upon us and many hearts will be eased. Times are not as hot here as one might expect. It is a great thing to enter the campaign in earnest without making hard feelings among one's neighbors. No doubt all of our voters will turn out on Wednesday and vote intelligently.

Mr. E. E. LAW, of THE PROGRESS, and Mrs. Law visited Edgeley last Sunday.

The special services in the church on Sunday were well attended. Rev. Mr. Hoskin preached two excellent and appropriate sermons and a liberal collection in aid of the church debt was taken up.

The supper and concert held in the hall was a great success socially and financially. Many came from a distance to take part. The debt on the church was wiped off from the amounts realized. A large crowd partook of supper which was of first quality. The Rag-drill was much appreciated by those present, as was also Rev. Hoskin's humorous and instructive address on "Pioneer Life."

Territorial and General News.

On Sunday Rev. J. Hoskin of Qu'Appelle Station, occupied the Methodist pulpit in the absence of the pastor, Rev. O. Darwin, who left last week to attend a special meeting of the Conference Committee at Boissevain, Man.—Moose Jaw Times.

While Mr. Hiram Wright's threshing machine was in operation last Friday about noon, on the farm of H. Collier about 20 miles north-east of town, Hiram in looking over the working of the machine, slipped and fell, and was caught by the belt which runs the feeding apparatus. He was violently dashed around to the ground, when picked up by his friends he was unconscious and bleeding profusely from the mouth and nose, and it was discovered that his left forearm was broken. All that could be done to relieve the poor chap's suffering, and on regaining some consciousness, it was thought advisable to remove him to Moosemin. This was done in as easy manner as possible and medical aid procured. The fractured arm was set and the patient made as comfortable as possible in the Grosvenor Hotel. Mr. Wright was able to be taken to his home on Sunday, though suffering from severe pains in his head, but did not complain of any other internal injuries, and with a mother's care and a vigorous constitution we trust he will soon be around again.—Moosemin World.

Two Western Men Killed.

London, Nov. 5.—Lord Roberts telegraphs from Johannesburg under date of Nov. 3 that in operations in the Tlofist district on Nov. 2 Capt. Chalmers, of the Canadian Mounted R.I.L.s, was killed and Major Sanders, of the same command, was wounded.

Capt. T. W. Chalmers was an inspector in the N. W. M. P. for a number of years and a graduate of the Kingston Military College. For several years previous to enlisting for service in the Transvaal war Capt. Chalmers followed the occupation of a surveyor at Edmonton.

Major G. E. Sanders is a Royal Military college graduate and served in the North west rebellion of 1885, where he got his commission. He enlisted at Edmonton for the Transvaal war.

From our own correspondent.

Politics is the general topic of conversation these days.

Threshing here has just been completed and in most cases the farmer is well satisfied with the yield per acre, but in no case will the grain go No. 1 hard.

Mrs. Mabel Goodwin, of Edgley, has returned to her home after spending a week visiting friends in this vicinity.

The Rev. Jas. Hoskin will preach a harvest sermon here on Sunday the 11th. On Monday evening following will be held the annual har-

vest home supper. A good programme is being provided for by the committee in charge.

A band of Hickvale people attended the closing exercises of the public school of Newton. A good programme was rendered by the pupils of the school. All returned home well pleased with the entertainment of the evening.

Our Washington Letter.

The total population of the United States has been announced by the Census office as a little less than 75,300,000, an increase of about 20 per cent in the past ten years. The 150 cities that have each over 25,000 population have increased 32.5 per cent, and the rest of the country only about 15 per cent, giving a rate of increase for the towns more than double for that elsewhere. There are some surprises in regard to the relative growth of the states, it appearing that the east and middle west has grown faster than the states west of the Mississippi river. New York and New Jersey have increased faster than the average, and Ohio and Indiana have taken behind it. Another surprise is the increase in Louisiana, the only strictly southern state that has gained faster than the rest of the country.

The Treasury Department has held that a head tax of \$1 each is collectible on aliens going from Canada to Hawaii. The question was raised by E. J. Coyle of the Canadian Pacific Railway who claimed immunity from the tax under the act providing that until the head tax should be imposed on land passengers, it should not apply to passengers coming by vessels employed exclusively in the trade between the ports of the United States and the ports of the Dominion of Canada or the ports of Mexico. The laws of the United States, not "locally applicable" have been extended to Hawaii, but the Treasury holds that the act in question is "locally inapplicable" to that territory, because the act imposing the head tax on ship passengers can never be made applicable to persons going into the Territory "by land carriage," and that, therefore, the tax should be collected from the Canadian passengers—all of which seems a very strained method of reasoning.

Pittsburg capitalists have organized a company which will erect blast furnaces on the Canadian side of Lake Erie near the entrance to the Welland canal. The new company will spend 12,000,000 in constructing its plant, which will in-

clude a railway for hauling coke from Pennsylvania to Lake Erie. The whole scheme indicates that the centre of the iron industry is shifting from their city to the lakes, and that it is cheaper to carry the coke to the ore than the ore to the coke. In addition to this, the construction of the plant on the Canadian side shows how disadvantageously present Canadian tariff regulations will affect the United States if they are maintained. It ought to be possible to manufacture iron products of all kinds and send them to Canada, but in order to avoid the Canadian tariff, which is retaliatory, American capital will be taken into Canada and that country will be benefited by American enterprise.

The biggest nugget of gold ever received at the assay office, in New York arrived recently from a mining company in British Columbia. It was consigned to the New York agents of the Bank of Montreal. The nugget contained a fraction over 753 pounds of the solid yellow metal, and is valued at 154,000. It came in a solid cone, and stood about two feet high. This cone was wrapped in canvas, and fitted with an oblong box made of two-inch planks, and heavily bound with iron. The gold was held firmly in the box by two wooden wedges driven in from the top. Two heavy iron rings were set in the sides of the rough box, and through these were fitted wooden bars, by which the box was lifted. It required four men to remove it from the truck in the assay office to the scales.

A WISS MOVE.

The ratpayers of Regina are being canvassed for their approval of a request to be submitted to the town council asking for a by-law to keep children off the streets after nine o'clock at night.

Women are Slaves to Bric-a-Brac.

"There are no people on the face of the earth who litter up the rooms of their homes with so much useless, and consequently bad furnishing as do the Americans," writes Edward Bok in the November Ladies' Home Journal. "The curse of the American home to-day is useless bric-a-brac. A room in which to feel that we can freely breathe is so rare that we are instinctively surprised when we see one. It is the exception rather than the rule, that we find a restful room. As a matter of fact to this common error of over-furnishing so many of our homes, are directly due many of the nervous breakdowns of our women. The average American woman is a perfect slave to the useless rubbish which she has in her rooms. This rubbish, of a costly and tawdry character in homes of moderate incomes is making housekeeping a nerve racking burden. A serious phase of this furnishing is that hundreds of women believe these junkcracks ornament their rooms. They refuse to believe that useless ornamentation always disfigures and never ornaments. Simplicity is the only thing that ornaments. It does more; it dignifies. The most artistic rooms are made not by what is in them, but by what has been left out of them. One can never quarrel with simplicity, and nothing goes for perfect good taste so surely as a simple effect. A tasteful effect is generally reached by what has been undone. And that is the lesson most needed in America to-day; not what we can put into a room, but what we can leave out of it."

A RHEUMATIC ON THE RUN.

After being crippled, harassed and confined by rheumatism for years, hundreds of rheumatics have found freedom in the Great South American Rheumatic Cure.

"Within twenty-four hours I was absolutely free from rheumatism, and have not been troubled with it since." The cures seem almost miracles, but they are true all the same.

If a sufferer, and Skeptical, we can furnish you with hundreds of undoubted testimonials from prominent people in all parts of Canada.

With the sudden changes in weather that are common to our Canadian climate, rheumatism has got its hold of thousands of men and women, young and old.

The old and the young experience its severe twinges in their bones, and have the power of life harassed by the most excruciating suffering.

Rheumatism is not invariable, but it is not removed by a mere simple application to the outside. It is in the blood, and those portents that give rise to the intense suffering must be treated with a medicine that will effect a necessary change in the system.

This is the secret of the wonderful success of the Great South American Rheumatic Cure. It goes at once into the blood, and within one hour relief comes to the sufferer.

The trouble may have taken the shape of rheumatism or sciatica, or a phase of neuralgia. You may consider that it has become chronic and cannot be removed. You will not be disappointed in using South American Cure, for no matter how bad may be the case it will positively cure.

If the words of many who have been cured are needed to strengthen you in your decision to use this most fine, we can furnish you with any number of the most reliable testimonials.

The Great South American Nervine Tonic is a wonderful nerve food, builds up the general health and will cure any case of nervous exhaustion.

South American Kidney Cure relieves the most desperate kidney and bladder diseases in a short time.

ARRIVAL OF IDAHO

THE FIRST CONTINGENT ARRIVES AT HALIFAX THURSDAY.

A Grand Reception at the Nova Scotia Capital—The Boers invade Cape Colony.

Halifax, Nov. 1.—The transport Idaho with the first Canadian contingent was signalled at 2:30 o'clock this morning. The vessel shortly afterwards entered quarantine. Today will be the grandest fête day ever observed in Halifax, and the returning soldiers will receive a welcome of the greatest enthusiasm.

All Halifax is on the tip of expectancy. Thousands of anxious eyes watched the citadel signal staff from yesterday at daybreak until nightfall for the hoisting of the black ball that signals the approach of the British troops. Idaho with the brave soldiers of Canada. The vessel is now eleven days from St. Vincent, and although the captain called he would arrive here on the 20th, many shipping men believe a twelve day passage would not be surprising. The weather has been so good, the sea has been so calm, and the fact that the Idaho has been sailing so long in southern waters.

Although the delay has been annoying to many visitors, it has given the people an opportunity to inspect the decorations and illuminations. All along the streets were thronged with sightseers, and last night Barrington, Granville and Hollis streets contained many and jostling crowds, whose enthusiasm could not be restrained. Hundreds of flags were waving, thousands of whistles were striking and toms were exploding all about the line. It was a noisy day and night, but it was only a curtain raiser to the great popular demonstration that will follow the Idaho's arrival.

Pretoria, Nov. 1.—Intelligence has reached here that Commandant General Botha is marching with a strong force, and has invaded Cape Colony near Komar, where it is said, the irreconcilable Boers are ready to join him.

London, Nov. 1.—A belated dispatch from Pretoria tells of the failure of the British negotiations with General Botha for the surrender of the Boers. Botha received Gen. Paigel's flag of truce courteously and admitted his defeat, but said it was impossible to treat for surrender as long as any burghers wished to continue the war.

President Steyn was more irreconcilable. He refused to even see the bearer of a flag of truce.

A BLAZE AT MANOR.

Manor, N. W. T., Nov. 1.—About 2 o'clock this morning a fire started in the large new hardware store owned and occupied by Alex. Stinson which completely destroyed the building and its contents. The loss amounts to \$1,400, and the insurance to \$900. The loss on the store is \$500, and insurance \$500, both in the Western Assurance company.

The fire spread to the new store belonging to J. R. Hogg, completely destroying it also; loss \$1,200, with insurance. The building was occupied by Mr. Hogg, intended moving his stock in a few days.

The building owned and occupied by R. W. Bradley as a harness shop was also destroyed. He had no insurance, but the stock was saved. By the heroic efforts of the citizens the fire was kept back from Davies' store, whose stock was damaged to the extent of \$200 by removal.

BRITISH COLUMBIA NEWS.

Vancouver, B. C., Nov. 1.—The residents of Chilliwack district are exercised over the remarkable and complete disappearance of a farmer, Archibald Edmondson, since Oct. 1, after an alleged drunken spree. This was apparently his first and fears are entertained of suicide as a consequence of remorse. All avenues of departure have been closely watched and no clue to the missing man has yet been found. He has a wife and daughter who are distracted with grief.

A peculiar case is before the courts here, and one that has no precedent in British Columbia, or probably in Canada. The costs of the Stevenson Strike remain unsettled. A writ for \$2,021.32 has been served on the municipality of Richmond. The case was brought on behalf of Col. Wornop, of the Duke of Connaught's Own, which were sent to the scene of the disturbance and spent a week under canvas at Stevenson. The sum is in liquidation of the maintenance of 15 officers and 167 non-coms, and men during that period. Messrs. Russell & Russell, of Vancouver, hold the brief for the municipality.

VENEZUELA BADLY SHAKEN.

Caracas, Venezuela, Nov. 1.—Further details received regarding the earthquake of Monday show that San Casimiro, Cua and Charallano were entirely destroyed. An islet situated at the mouth of the Nemer river has disappeared. At Tacarigua, Barichana and Curipe the damage done was considerable. There are many dead and injured.

LORD SALISBURY.

BRITISH PREMIER HAS DECIDED TO GIVE UP

The Foreign Secretaryship—The News Confirmed—Lord Lansdowne His Successor.

London, Oct. 31.—The following important announcement appears this morning in the Daily Telegraph.

"We understand that after mature consideration, Lord Salisbury has decided to resign the foreign secretaryship, which will be transferred to the Marquis of Lansdowne. Although the health of the prime minister gives no cause for anxiety, we believe that he is largely influenced by the counsel of his medical advisers."

Lord Salisbury came to London yesterday and paid a long visit to the foreign office, where he received Lord Lansdowne, and after him the Duke of Devonshire. In the afternoon he held the customary reception to the members of the diplomatic corps, among those present being M. de Staël, the Russian ambassador, M. Paul Cambon, the French ambassador, Count von Hatzfeldt-Wildenburg, the German ambassador, and Mr. Choate, the American ambassador. He remained until a quarter of eight, and then went direct to Hatfield house.

There is little doubt that the Daily Telegraph's information is correct. The appointment of Lord Lansdowne (whose control of the war office has been so severely condemned) will probably cause some dissatisfaction. The Times confirms the statement of the Daily Telegraph that Lord Salisbury will give up the foreign office portfolio, but it does not name his successor.

LONDON WELCOMES ITS HEROES

London, Oct. 30.—The City Volunteers, who arrived at Southampton from South Africa Saturday night, the British transport Aurania, reached here by train this morning. They marched through London, along streets packed by thousands, and received a tumultuous greeting. Such a demonstration was probably never before evoked for such a small body of volunteers.

The postponement of London's welcome until today diminished the number of spectators, but the enthusiasm could scarcely be more general or genuine. Early in the day Queen Victoria sent a message to the returning troops, welcoming them and inquiring as to their health. The Prince of Wales came to town, and viewed the procession from Marlborough house. The revelries watching the little band of men in khaki uniforms were the Princess Louise, the Duchess of Argyll, and Prince Edward of Saxe-Weimar, and many other distinguished people. All along the line of march there were flags and other such devices which had been up since Saturday.

In addition to the City Imperial volunteers themselves, there were in the procession the bands of twelve volunteer regiments, and 24,000 regulars and volunteers lined the route. Among the most interesting features of the display was the presence in the procession of the invalided City Imperial volunteers in carriages, flying the Red Cross flag, and the ambulance at a conspicuous point in Fleet street of the few remaining survivors of the Balaklava charge.

During the reception scenes of people were injured by panics caused by the inability of the police to control the surging crowds. In Fleet street the scenes could only be likened to a continuous football scrimmage. Shrieks and groans filled the air, people were hurled to the ground and trampled upon. Life guards on horseback were swept off and lost in the struggling mass of humanity after the impromptu attempts to stem the tide of the mob. Some of the injuries sustained were so severe that it is feared they will prove fatal.

MINER KILLED AT KEEWATIN.

Kewatin, Ont., Oct. 30.—Neilson Craig met his death in the Ottawa Gold Mining and Milling company's reduction works here Saturday night. Craig had been doing some carpenter work for himself when last seen at 11:40 p.m., and it is supposed that he was about to grind a knife and on the attempt to change the belt from the drillhole to the grindstone the belt caught and twisted around the shaft, taking Craig with it, the shaft being only two feet from the belt. He was undoubtedly killed instantly.

When the watchman was making his round a most horrible sight met his eyes. He saw Craig lying on the floor near the shaft, and his right arm lying by his side, torn from the body. His clothes were twisted tightly around the shaft with the belt. Deceased came here about three months ago from Kingston, Ont., and is a brother of W. J. Craig, the company's manager. The remains go to Kingston for interment.

Sydney, N. S. W., Oct. 31.—The government has invited the premiers of Canada, Cape Colony and Natal, together with other representatives to attend the inauguration of the commonwealth of Australia.

Such was the unanimous verdict of those in attendance at the Orange Entertainment on Monday night. The large hall was comfortably filled, the music good, the supper appetizing and the Orangemen excited themselves to see that everyone had a good time. We congratulate the lodge on the success of this their first venture in Qu'Appelle. No doubt a goodly sum will go to swell the coffers of the Protestant Orphans' Home.
